CLASS DESCRIPTIONS

ESSENTIAL ENGLISH SKILLS

You will learn and practice all the skills you need to understand and communicate in English — Listening, Speaking, Reading, Writing, Pronunciation, as well as Vocabulary, Idioms, and Grammar. In addition, you will learn the common phrases and expressions that native speakers use. By integrating all these skills, you will achieve all-round English competence so that you can both understand and communicate more naturally. Offered at levels 2 - 7.

ENGLISH FOR REAL LIFE

Who doesn't need more practice? In this class you will put into practice the skills learned in morning classes. Interactive activities include conversation, discussion, debate, and role play. You will read about, listen to, research and write about issues of personal, local, social, and global interest. You will use authentic media: radio and TV, newspapers and magazines, telephone, email, and internet. These classes are fun and very popular. The focus is on fluency and functional communication skills.
